Scope of work

For your front garden, we'll replace the existing pavers with resin-bound stone in a buff colour. We'll install a corten steel retaining wall to manage the garden's slope, preparing for rust-coloured aesthetic integration. We'll also level the approach to your door and incorporate simple, elegant planting. Additionally, we'll install a new gate at the front to complete the look.

ESTIMATED START

14 July 2026
